PROFESSION: PRODUCER/PRODUCTION MANAGER

Loice Konga is proof that there is room in this world for all our passions. A film producer/ production manager, Mentor, and Entrepreneur are some of the few hats that she wears. In the words of Audre Lorde, Loice is 'deliberate and afraid of nothing' and "You are never fully dressed without a smile.". She is inspiring and makes things happen infusing those around her with energy that empowers them to dream big and believe that anything we set our minds to is possible.

Loice is the Co-founder of Invogue agency, an International Talent Management Company that represents Models & Actors. Through the agency, she's provided talent for some of the leading brands in East Africa including Safaricom, LG, KWAL, Airtel, TCB, Qatar Airways, and Google. Her vision for Invogue is to see the brand representing and managing talent globally.

With over 5 years of experience in Film Production, she produced and managed very major and big films in Kenya.

With compassion as her driver, Loice is indeed a powerhouse to watch out for in Kenya's quest to elevate the film and entertainment industry.

OBJECTIVE: In whatever I do, I do it to perfection; whatever I believe in, I must achieve and make the best out of it.
